Digital Transformation

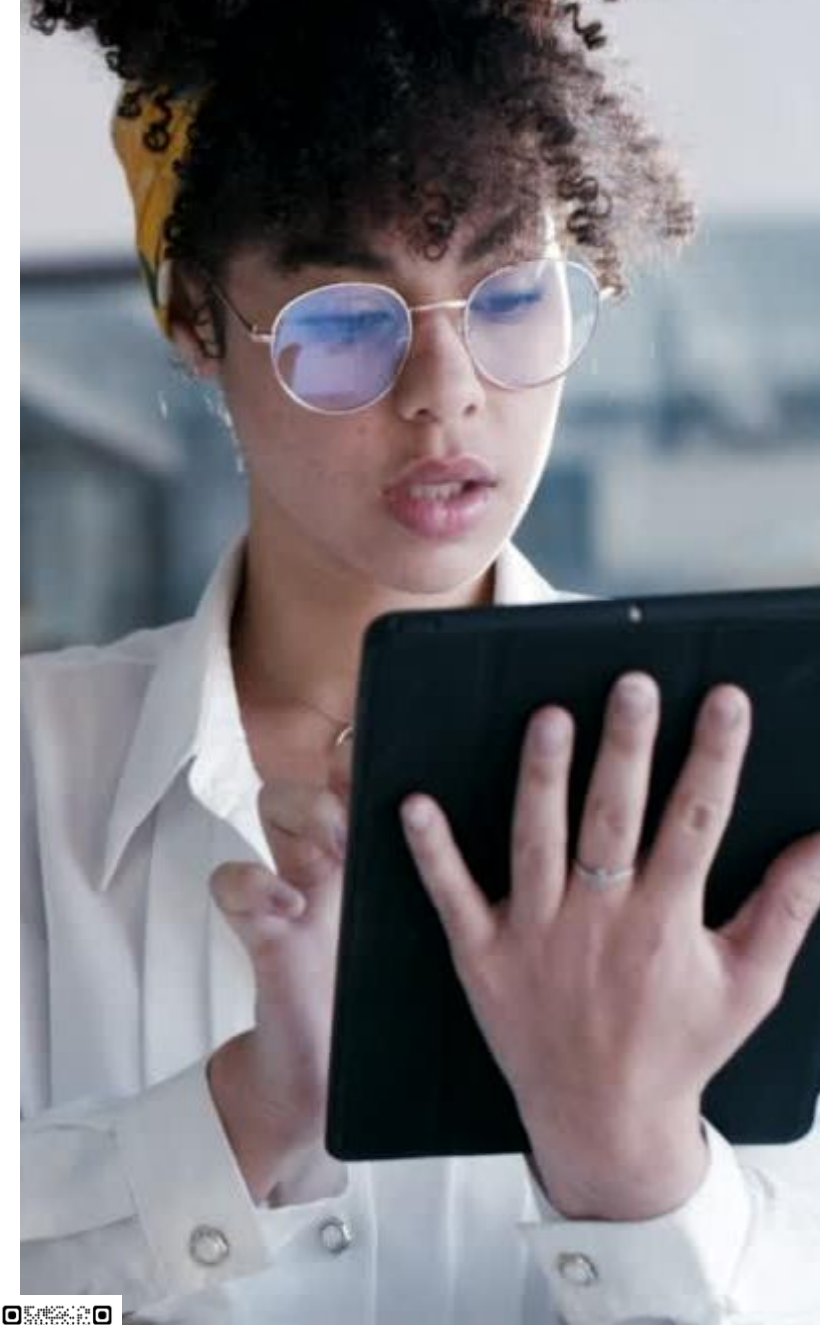

Not an Option

Ten Tenets for Government Digital Transformation:

1. Make every citizen matter
2. Digitize for the digitally challenged
3. Establish frameworks for data accountability
4. Think ecosystems
5. Build for future generations
6. Measure for outcomes
7. Foster a culture of digital instinct
8. Drive policy agility
9. Leverage untapped assets
10. Be intentional about brand building

Here's how government can
accelerate their digital journey and
empower citizens | Thoughtworks

Journey to 2030

Fundamental

What does our future need to look like to ensure the continued success of you, our Clients, and of your Citizens?

A hand is shown performing a fingerprint scan. The finger is positioned over a glowing, circular digital interface that resembles a fingerprint scanner. The background is a blurred blue image of a person in a lab coat. Overlaid on the scene are various futuristic digital elements: glowing blue lines and dots representing a network or circuitry, and several rectangular panels containing illegible text and data. The overall aesthetic is high-tech and futuristic.

Future Proof

Future Tech Enhanced

A large, dense school of silver fish, possibly sardines, is swimming in clear blue water. The fish are arranged in a roughly circular formation, moving towards the left. The water is a vibrant blue, and the sandy ocean floor is visible at the bottom. The lighting is bright, suggesting a sunny day.
